# GALLANT PRECISION MACHINING CO., LTD. AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND REVIEW REPORT OF INDEPENDENT ACCOUNTANTS FOR THE SIX-MONTH PERIODS ENDED JUNE 30, 2019 AND 2018

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

#### **REVIEW REPORT OF INDEPENDENT ACCOUNTANTS**

To Gallant Precision Machining Co., Ltd.

#### Introduction

We have reviewed the accompanying consolidated balance sheets of Gallant Precision Machining Co., Ltd. and its subsidiaries as of June 30, 2019 and 2018, and the related consolidated statements of comprehensive income for the threemonth and six-month periods ended June 30, 2019 and 2018, respectively., changes in equity and cash flows for the six-month periods ended June 30, 2019 and 2018, and the notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting," as endorsed by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

#### Scope of Review

Except as explained in the Basis for Qualified Conclusion paragraph, we conducted our reviews in accordance with Statement of Auditing Standards 65, "Review of Financial Information Performed by the Independent Auditor of the Entity". A review of the consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### **Basis for Qualified Conclusion**

As stated in Note 4(3) and 6(7), the consolidated financial statements included the financial statements of certain nonsignificant subsidiaries, which were not reviewed by independent accountants. These financial statements reflect total assets amounting to \$872,904 thousand and \$1,103,261 thousand, constituting 13% and 18% of consolidated total assets as of June 30, 2019 and 2018, respectively, total liabilities amounting to \$94,307 thousand and \$223,066 thousand, constituting 2% and 6% of consolidated total liabilities as of June 30, 2019 and 2018, respectively, and total comprehensive (loss) income amounting to \$5,149 thousand, \$24,140 thousand, (\$5,112) thousand and \$18,068 thousand, constituting 9%, 13%, (11%) and 6% of consolidated total comprehensive income (loss) for the three-month periods ended June 30, 2019 and 2018, respectively. The investments accounted for using equity method amounting to \$70,026 thousand and \$64,900 thousand as of June 30, 2019 and 2018, respectively, and related share of the profit or loss amounting to (\$3,346) thousand and (\$1,862) thousand, constituting (8%) and (0.6%) of total consolidated comprehensive income (loss) for the six-months periods ended June 30, 2019 and 2018, respectively.

#### **Qualified Conclusion**

Based on our reviews except for the effects of the adjustments, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and equity accounted investee companies described in the Basis for Qualified Conclusion paragraph above been reviewed by independent accountants, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Gallant Precision Machining Co., Ltd. and its subsidiaries as of June 30, 2019 and 2018, and of its consolidated financial performance and its consolidated cash flows for the six-month periods ended June 30, 2019 and 2018 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IASs 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission of the Republic of China.

PricewaterhouseCoopers, Taiwan August 12, 2019

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other

than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

# GALLANT PRECISION MACHINING CO., LTD. AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE SIX-MONTH PERIODS ENDED JUNE 30, 2019 AND 2018 (Expressed in thousands of New Taiwan dollars, except as otherwise indicated) (UNAUDITED)

# 1. HISTORY AND ORGANIZATION

Gallant Precision Machining Co., Ltd. (the "Company").

The Company was incorporated on December 22, 1978. The Company and its subsidiaries (collectively referred herein as the "Group") are engaged in the design, manufacture and sale of molds and machinery, metal parts and mold parts, stamping parts and die-cast parts, and automated manufacturing systems and their unit equipment, as well as the management and investment in the relevant business.

The Company's stock was listed on the Taipei Exchange (formerly named GreTai Securities Market), effective from February, 1998.

The Company merged with Syntran Co., Ltd (the "Syntran Company") on August 3, 2007 (merger effective date). The Company was a surviving company and Syntran Company was a dissolved company. Syntran Company was incorporated in November 1994, mainly engaged in the research, development, manufacture and sale of DWDM automatic optical testing machines, DWDM module packaging machines, digital safety monitoring systems and nano functional powder and films.

The special shareholders' meeting of the Company resolved to spin-off its semiconductor business on December 15, 2010 and the GreTai Securities Market approved the spin-off and the Company's stock listed on January 13, 2011. The Company transferred its semiconductor business and related investment to the Company's subsidiary – Gallant Micro. Machining Co., Ltd. on the spin-off effective day March 1, 2011. The equity interest in Gallant Micro. Machining Co., Ltd. held by the Company as of June 30, 2019 was 57.19%.

# 2. <u>THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL</u> <u>STATEMENTS AND PROCEDURES FOR AUTHORIZATION</u>

These consolidated financial statements were authorized for issuance by the Board of Directors on August 12, 2019.

#### 3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

 (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC") New standards, interpretations and amendments endorsed by FSC effective from 2019 are as follows:

New Standards, Interpretations and Amendments	Effective Date by International Accounting Standards Board
Amendments to IFRS 9 "Prepayment Features with Negative	January 1, 2019
Compensation"	
IFRS 16, 'Leases'	January 1, 2019
IAS 19 "Plan Amendment, Curtailment or Settlement"	January 1, 2019
IAS 28 "Long-term Interests in Associates and Joint Ventures"	January 1, 2019
IFRS 23, 'Uncertainty over Income Tax Treatments'	January 1, 2019
Annual improvements to IFRSs 2015-2017 cycle	January 1, 2019

Except for the followings, the above standards and interpretations have no significant impact to the Group financial condition and operating result based on the Group assessment.

#### IFRS 16, 'Leases'

- A. IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognise a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.
- B. The Group has elected to apply IFRS 16 by not restating the comparative information (referred herein as the 'modified retrospective approach') when applying "IFRSs" effective in 2019 as endorsed by the FSC. Accordingly, the Group increased 'right-of-use asset' by \$267,264 increased 'lease liability' by \$267,264 with respect to the lease contracts of lessees on January 1, 2019.
- C. The Group has used the following practical expedients permitted by the standard at the date of initial application of IFRS 16:
- a. Reassessment as to whether a contract is, or contains, a lease is not required, instead, the application of IFRS 16 depends on whether or not the contracts were previously identified as leases applying IAS 17 and IFRIC 4.
- b. The use of single discount rate to a portfolio of leases with reasonably similar characteristics.
- c. The accounting for operating leases whose period will end before December 31, 2019 as shortterm lease and accordingly, rent expense of \$6,965 was recognized in the second quarter of 2019.
- d. The exclusion of initial direct costs for the measurement of 'right-of-use asset'.
- e. The use of hindsight in determining the lease term where the contract contains options to

extend or terminate the lease.

- D. The Group calculated the present value of lease liabilities by using the incremental borrowing interest rate which ranging from 1.31% to 5%.
- E. The Group recognized lease liabilities which had previously been classified as 'operating leases' under the principles of IAS 17, 'Leases'. The reconciliation between operating lease commitments under IAS 17 measured at the present value of the remaining lease payments, discounted using the leasee's incremental borrowing rate and lease liabilities recognized as of January 1, 2019 is as follows:

Operating lease commitments disclosed under IAS 17 as of December 31, 2018	\$ 83,499
Add/Less: Adjustments as a result of a different treatment of extension and	
termination options	 237,853
Total lease contracts amount recognized as lease liabilities under IFRS 16 as of	
January 1, 2019	\$ 321,352
The range of incremental borrowing interst rate at the date of initial application	1.31%~5%
Lease liabilities recognized as of January 1, 2019 under IFRS16	\$ 267,264

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

None.

## (3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs endorsed by the FSC effective as follows:

New Standards, Interpretations and Amendments	Effective Date by International Accounting Standards Board
Amendments to IAS 1 and IAS 8 "Definition of Material"	January 1, 2020
Amendments to IFRS 3 "Definition of a Business"	January 1, 2020
Sale or contribution of assets between an investor and its associate or	To be determined by
joint venture (amendments to IFRS 10 and IAS 28)	International Accounting
	Standards Board
IFRS 17, 'Insurance Contracts'	January 1, 2021

The above standards and interpretations have no significant impact to the Group's financial condition and operating result based on the Group's assessment.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted are consistent with Note 4 in the consolidated financial statements for the year ended December 31, 2018, except for the compliance statement, basis of preparations, basis of consolidation and additional policies as set out below. These policies have been

consistently applied to all the periods presented, unless otherwise stated.

#### (1) Compliance statement

- A. The consolidated financial statements of the Group have been prepared in accordance with the "Rules Governing the Preparation of Financial Statements by Securities Issuers" and IAS 34, "Interim Financial Reporting" as endorsed by the FSC.
- B. Please refer to the Group's consolidated financial statements for the year ended December 31, 2018.

#### (2) <u>Basis of preparation</u>

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
  - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
  - (b) Available-for-sale financial assets measured at fair value.
  - (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

#### (3) <u>Basis of consolidation</u>

A. Basis for preparation of consolidated financial statements:

The basis for preparation of consolidated financial statements are consistent with those of the year ended December 31, 2018.

B. Subsidiaries included in the consolidated financial statements:

(4) Leasing arrangements (lessee) – right-of-use assets/ lease liabilities

# Effective from 2019

A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.

B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:

Fixed payments, less any lease incentives receivable;

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
  - a. The amount of the initial measurement of lease liability;
  - b. Any initial direct costs incurred by the lessee;

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(5) Leased assets/ operating leases (lessee)

#### Effective from 2018

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

#### (6) <u>Employee benefits</u>

Pensions

#### Defined benefit plans

Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. And, the related information is disclosed accordingly.

#### (7) Income tax

A. The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

B. If a change in tax rate is enacted or substantively enacted in an interim period, the Group recognises the effect of the change immediately in the interim period in which the change occurs. The effect of the change on items recognised outside profit or loss is recognised in other comprehensive income or equity while the effect of the change on items recognised in profit or loss is recognised in profit or loss.

A. Under the Company's Articles of Incorporation, the Company shall distribute not less than 1% and not more than 12% of its annual profit as the employee compensation, and not more than 3% of its annual profit as the director remuneration. However, if the Company has an accumulated deficit, then it should be offset first.

Employee remuneration could be paid by cash or shares, and entitled to receive the cash or shares may include the employees of subsidiaries of the Company meeting certain specific requirements.

The term "profit" used in the first paragraph refers to the profit before tax before deducting the employee compensation and director remuneration. The distribution of employee compensation and director remuneration shall be in a board meeting that registers two-thirds of directors in attendance, and the resolution must receive support from half of participating members. The resolution should be reported to the shareholders at shareholders' meeting.

B. For the three-month periods ended June 30, 2019 and 2018 and for the six-month periods ended June 30, 2019 and 2018, employees' remuneration was accrued at \$4,552, \$19,610, \$4,552 and \$33,803, respectively; directors' remuneration was accrued at \$910, \$3,922, \$910 and \$6,761, respectively.

The employees' compensation of \$54,418 and directors' and supervisors' remuneration of \$9,567 has resolved by the meeting of Board of Directors on June 25, 2019 were in agreement with those amounts recognized in the 2018 financial statements.

Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors and resolved by the stockholders will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

### 9. <u>SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNISED CONTRACT</u> <u>COMMITMENTS</u>

#### (1) Contingent liabilities

- A. As of June 30, 2019, December 31, 2018 and June 30, 2018, the bank open a guarantee letter for the Company due to business tender and guarantee for construction amounting to \$168,748, \$173,540 and \$144,558, respectively.
- B. The Group's customer, China Chongqing Chongmei Huashixin Electronic Manufacturing Co., Ltd., purchased equipment products from the Company. However the customer was unwilling to sign the confirmation of acceptance and pay the rest payment to the Company and its subsidiary due to operation issues. The case has been submitted to China Chongqing Arbitration Commission for judgment in November, 2017. In June 2018, the Arbitration Commission has rejected the claim for the payment. As the Group has recognized allowance for related bad debts from 2015 to 2017, there is no impact to the Group's operation and financial performance.
- (2) Unrecognized contract commitments

Price risk							

For the six-month period ended June 30, 2018

- A. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss, and financial assets at fair value through other comprehensive income and available-for-sale financial assets. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- B. The Group's investments in equity securities comprise domestic listed and unlisted stocks. shares and open-end funds issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased with all other variables held constant, post-tax profit for the periods ended June 30, 2019 and 2018 would have increased/decreased by \$537 and \$4,059, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$821 and \$1,203, respectively, as a result of gains/losses on equity securities other comprehensive income classified as available-for sale equity investment and available-for-sale financial assets equity investment at fair value thorugh other comprehensive income.

Cash flow and fair value interest rate risk

The Group's interest rate risk arises from short-term and long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. During the periods ended June 30, 2019 and 2018, the Group's borrowings at variable rate were denominated in the NTD, JPY ,USD. If the interest rate had increased/decreased by 1%, the amount of cash flow out for the six-month periods ended June 30, 2019 and 2018 would have increased/decreased by \$8,579 and \$6,745, respectively.

#### (b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost, at fair value through profit or loss and at fair value through other comprehensive income.
- ii. The Group manages their credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
- iii. The Group adopts the assumptions under IFRS 9, the default occurs when the contract payments are past due over 90 days.
- iv. The Group adopts following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:

If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.

- v. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
  - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
  - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
  - (iii) Default or delinquency in interest or principal repayments;
  - (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- vi. The Group classifies customer's accounts receivable, in accordance with credit rating of customer. The Group applies the simplified approach using provision matrix, loss rate methodology to estimate expected credit loss under the provision matrix basis.
- vii.The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights.
- viii. The Group used the forecastability of Panel industry research report to adjust historical and timely information to assess the default possibility of accounts receivable. On June 30, 2019, December 31, 2018 and June 30, 2018, respectively, the provision matrix is as follows:

#### (3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks, beneficiary certificates, is included in Level 1
  - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in most derivative instruments is included in Level 2.
  - Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market and investment property is included in Level 3.
- B. Financial instruments not measured at fair value

The Group's financial instruments not measured at fair value (the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, guarantee deposits paid, deposit account(over 3 months), short-term borrowings, contract liabilities, accounts payable, other payables, lease payments (shown as other current assets and other non-current assets) and long-term borrowings (including current portion) are approximate to their fair values.

- C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

(b)The methods and assumptions the Group used to measure fair value are as follows:

i . The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed shares	Closed-end fund	Open-end fund
Market quoted price	Closing price	Closing price	Net asset value
i i. Except for financial instrument instruments is measured by using quotes. - iii. When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market, and options, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- iv. The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models.
- v . The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- vi. The Group takes into account adjustments for credit risks to measure the fair value of financial instruments to reflect credit risk of the counterparty and the Group's credit quality.
- D. For the June 30, 2019, December 31, 2018 and June 30, 2018, there was no transfer into or out from Level 3.
- E. The following chart is the financial instruments movement of Level 3 for the six-month periods ended June 30, 2019 and 2018:

		For the six-month period ended June 30, 2019		For the six-month period ended June 30, 2018
		equity instrument		equity instrument
At January 1	\$	125,024	\$	129,003
Gains and losses recognized in other	her			
comprehensive income	(	42,925)	(	8,653)
At June 30	\$	82,099	\$	120,350

- F. For the six month periods ended June 30, 2019 and 2018, there was no transfer into or out from Level 3.
- G. Finance segment is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.
- H. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	June 30, 2019	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Derivative equity instrument: Unlisted shares	\$ 81,199	Market comparable companies	Price to book ratio multiple	0.74~2.98	The higher the multiple , the higher the fair value
Derivative equity instrument:	December 31, 2018	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Unlisted shares	\$ 63,345	Market comparable companies	Price to book ratio multiple	0.77~2.85	The higher the multiple , the higher the fair value
Derivative equity instrument:	June 30, 2018	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Unlisted shares	\$ 59,181	Market comparable companies	Price to book ratio multiple	0.94~2.48	The higher the multiple , the higher the fair value

I. The Group has carefully assessed the valuation models and assumptions used to measure fair value; therefore, the fair value measurement is reasonable. However, use of different valuation models or assumptions may result in difference measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets categorized within Level 3 if the inputs used to valuation models have changed:
