GALLANT PRECISION MACHINING CO., LTD. AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND REVIEW REPORT OF INDEPENDENT ACCOUNTANTS FOR THE NINE-MONTH PERIODS ENDED SEPTEMBER 30, 2016 AND 2015

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

REVIEW REPORT OF INDEPENDENT ACCOUNTANTS

To Gallant Precision Machining Co., Ltd.

We have reviewed the accompanying consolidated balance sheets of Gallant Precision Machining Co., Ltd. and its subsidiaries as of September 30, 2016 and 2015, and the related consolidated statements of comprehensive income for the three month periods ended September 30, 2016 and 2015, and for the nine month periods ended September 30, 2016 and 2015, and of changes in equity and of cash flows for the nine month periods ended September 30, 2016 and 2015. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these consolidated financial statements based on our reviews.

Except for the matters described in the next paragraph, we conducted our reviews in accordance with the Statement of Auditing Standards No. 36 "Engagements to Review Financial Statements" in the Republic of China. A review consists primarily of inquiries of Company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards in the Republic of China, the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

As discussed in Note 4(3) and 6(8), the accompanying consolidated financial statements included certain non-significant subsidiaries and investments accounted for using the equity method whose amounts and information disclosed in note 13 were based on unreviewed financial statements for the same period as that of the Company. These subsidiaries' total assets amounting to \$1,383,335 thousand and \$1,062,907 thousand, constituting 24% and 21% of total consolidated assets as of September 30, 2016 and 2015, respectively, total liabilities amounting to \$147,686 thousand and \$186,056 thousand, constituting 5% and 7% of total consolidated liabilities as of September 30, 2016 and 2015, respectively, and total comprehensive income (loss) amounting to (\$29,623) thousand, \$9,414 thousand, (\$71,157) thousand, and (\$20,455) thousand, constituting (222%), 5%, (32%) and (10%) of consolidated comprehensive income (loss) for the three month periods ended September 30, 2016 and 2015, respectively, and for the nine month periods ended September 30, 2016 and 2015, respectively, and related share of the profit or loss amounting to (\$41,313) thousand and (\$40,696) thousand for the nine month periods end 2015, respectively.

Based on our review, except for the effect on the financial statements and related disclosures of such adjustments, if any, as might have been determined to be necessary had the financial statements of these non-significant consolidated subsidiaries and investments accounted for using equity method been reviewed by independent auditors as explained in the preceding paragraph, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above in order for them to be in conformity with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and IAS 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission.

PricewaterhouseCoopers, Taiwan November 3, 2016

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

GALLANT PRECISION MACHINING CO., LTD. AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE-MONTH PERIODS ENDED SEPTEMBER 30, 2016 AND 2015 (Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

(UNAUDITED)

1. HISTORY AND ORGANIZATION

Gallant Precision Machining Co., Ltd. (the "Company").

The Company was incorporated on December 22, 1978. The Company and its subsidiaries (collectively referred herein as the "Group") are engaged in the design, manufacture and sale of molds and machinery, metal parts and mold parts, stamping parts and die-cast parts, and automated manufacturing systems and their unit equipment, as well as the management and investment in the relevant business.

The Company's stock was listed on the Taipei Exchange (formerly named GreTai Securities Market), effective from February, 1998.

The Company merged with Syntran Co., Ltd (the "Syntran Company") on August 3, 2007 (merger effective date). The Company was a surviving company and Syntran Company was a dissolved company. Syntran Company was incorporated in November 1994, mainly engaged in the research, development, manufacture and sale of DWDM automatic optical testing machines, DWDM module packaging machines, digital safety monitoring systems and nano functional powder and films.

The special shareholders' meeting of the Company resolved to spin-off its semiconductor business on December 15, 2010 and the GreTai Securities Market approved the spin-off and the Company's stock listed on January 13, 2011. The Company transferred its semiconductor business and related investment to the Company's subsidiary – Gallant Micro. Machining Co., Ltd. on the spin-off effective day March 1, 2011. The equity interest in Gallant Micro. Machining Co., Ltd. held by the Company as of September 30, 2016 was 66.88%.

2. <u>THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL</u> <u>STATEMENTS AND PROCEDURES FOR AUTHORIZATION</u>

These consolidated financial statements were authorized for issuance by the Board of Directors on November 3, 2016.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC")

None.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by FSC effective from 2017 are as follows:

Except for the followings, the above standards and interpretations have no significant impact to the Group's financial condition and operating result based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

A. Annual improvements to IFRSs 2010-2012 cycle

IFRS 8, 'Operating segments'

The standard is amended to require disclosure of judgments made by management in aggregating operating segments. This amendment also clarifies that a reconciliation of the total of the reportable segments' assets to the entity's assets is required only when segment asset is provided to chief operating decision maker regularly.

B. Annual improvements to IFRSs 2012-2014 cycle

(a) IFRS 7, 'Financial instruments: Disclosures'

The amendment provides additional guidance to determine whether the terms of an arrangement to service a financial asset which has been transferred constitute continuing

involvement and thus the disclosure requirement of transferred financial assets applies. And this amendment also clarifies that disclosure of offsetting is not required for all interim periods.

(b) IAS 19, 'Employee benefits'

The amendment clarifies that, when determining the discount rate for post-employment benefit obligations, it is the currency that the liabilities are denominated in that is important, and not the country where they arise. The assessment of whether there is a deep market in high-quality corporate bonds or not is based on corporate bonds in that currency, and not corporate bonds in a particular country. Similarly, where there is no deep market in high-quality corporate bonds in that currency, government bonds in the relevant currency should be used.

(c) IAS 34, 'Interim financial reporting'

The amendment clarifies what is meant by the reference in the standard to "information disclosed elsewhere in the interim financial report". The amendment further amends IAS 34 to require a cross-reference form the interim financial statements to the location of that information.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs endorsed by the FSC effective from 2017 are as follows:

Recognition of deferred tax assets for unrealized losses (amendments to	January 1, 2017
IAS 12)	

Except for the followings, the above standards and interpretations have no significant impact to the Group's financial condition and operating result based on the Group's assessment.

A. Amendments to IFRS 4, 'Applying IFRS 9 Financial instruments with IFRS 4 Insurance

contracts'

To address the concerns about the different effective dates of IFRS 9, 'Financial instruments', and the forthcoming new standard IFRS 4, 'Insurance contract', which may result in different bases for measuring assets and liabilities, this amendment allows insurers who meet specific requirements as set out in IFRS 4, 'Insurance contract' to adopt temporary exemption from IFRS 9, 'Financial instruments', or to use overlay approach under IFRS 9, 'Financial instruments' alternatively.

- B. IFRS 9, 'Financial instruments'
 - (a) Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortized cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.
 - (b) The impairment losses of debt instruments are assessed using an 'expected credit loss' approach. An entity assesses at each balance sheet date whether there has been a significant increase in credit risk on that instrument since initial recognition to recognize 12-month expected credit losses ('ECL') or lifetime ECL (interest revenue would be calculated on the gross carrying amount of the asset before impairment losses occurred); or if the instrument that has objective evidence of impairment, interest revenue after the impairment would be calculated on the book value of net carrying amount (i.e. net of credit allowance).
- C. IFRS 15, 'Revenue from contracts with customers'

IFRS 15, 'revenue from contracts with customers' replaces IAS 11 'Construction Contracts', IAS 18 'Revenue' and relevant interpretations. According to IFRS 15, revenue is recognized when a customer obtains control of promised goods or services. A customer obtains control of goods or services when a customer has the ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset.

The core principle of IFRS 15 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognizes revenue in accordance with that core principle by applying the following steps:

Step1: Identify contracts with customer

Step 2: Identify separate performance obligations in the contract(s)

Step 3: Determine the transaction price

Step 4: Allocate the transaction price.

Step 5: Recognize revenue when the performance obligation is satisfied.

Further, IFRS 15 includes a set of comprehensive disclosure requirements that requires an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

D. Amendments to IFRS 15, 'Clarifications to IFRS 15 Revenue from Contracts with Customers'

The amendments clarify how to identify a performance obligation (the promise to transfer a good or a service to a customer) in a contract; determine whether a company is a principal (the provider of a good or service) or an agent (responsible for arranging for the good or service to be provided); and determine whether the revenue from granting a licence should be recognized at a point in time or over time. In addition to the clarifications, the amendments include two additional reliefs to reduce cost and complexity for a company when it first applies the new Standard.

E. IFRS 16, 'Leases'

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognize a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted are consistent with Note 4 in the consolidated financial statements for the year ended December 31, 2015, except for the compliance statement, basis of preparations, basis of consolidation and additional policies as set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

A. The consolidated financial statements of the Group have been prepared in accordance with the "Rules Governing the Preparation of Financial Statements by Securities Issuers" and IAS 34, "Interim Financial Reporting" as endorsed by the FSC.

B. Please refer to the Group's consolidated financial statements for the year ended December 31, 2015.

(2) Basis of preparation

- A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:
 - (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Available-for-sale financial assets measured at fair value.
 - (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.
- (3) Basis of consolidation
 - A. Basis for preparation of consolidated financial statements:

The basis for preparation of consolidated financial statements are consistent with those of the year ended December 31, 2015.

B. Subsidiaries included in the consolidated financial statements:

(4) Employee benefits

Pensions

Defined contribution plans

Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. And, the related information is disclosed accordingly.

(5) Income tax

The interim period income tax expense is recognized based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

5. <u>CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF</u> <u>ASSUMPTION UNCERTAINTY</u>

Note A: Details of long-term borrowings pledged as collateral are provided in Note 8.

- Note B:(a) In order to repay the existing financial liabilities and enrich the medium-term working capital, the Company entered into a comprehensive credit contract amounting to \$720 million with China Trust Commercial Bank on September 3, 2014. The Company also applied for a drawdown of \$300,000 from the credit line granted by China Trust Commercial Bank in September 2014.
 - (b) According to the notice of credit between the Company and China Trust Commercial Bank, the financial ratios in the Company's annual and semi-annual consolidated financial statements should be maintained as follows:
 - i . Current ratio: the ratio of current assets divided by current liabilities shall be maintained above 120% (inclusive).

- ii . Gearing ratio: the ratio of total liabilities divided by tangible net worth shall not be more than 120%.
- iii. Financial gearing ratio: the total of short-term borrowings, corporate bonds due within one year, mid and long-term borrowings due within one year and long-term borrowings, divided by the tangible net worth shall not exceed 60%.
- iv. Net tangible net worth: the shareholders' equity after deducting intangible assets shall not be less than NT\$2,200,000 (inclusive).
- C. The Group has the following undrawn borrowing facilities:

	September 30, 2016		D	ecember 31, 2015	September 30, 20		
Floating rate:							
Expiring within one							
year	\$	1,148,493	\$	1,333,018	\$	1,111,258

	\$	1,198,531	\$	1,532,335	\$	1,303,694	

The facilities expiring within one year are annual facilities subject to review at various dates during 2016. The other facilities have been arranged to help finance the proposed machine manufacturing and R&D business activities of the Group. The information about the Group's liquidity risk is provided in Note 12.

- (14) Pensions
 - A. (a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is not enough to pay the pension calculated by the aforementioned method, to the labors expected to be qualified for retirement next year, the Company and its domestic subsidiaries will make contribution for the deficit by next March.
 - (b) For the aforementioned pension plan, the Group recognized pension costs of \$404, \$508, \$1,213 and \$1,526 for the three-month periods ended September 30, 2016 and 2015, and for the nine-month periods ended September 30, 2016 and 2015, respectively.
 - (c) Expected contributions to the defined benefit pension plans of the Group for the year ended December 31, 2017 are \$6,911.
 - B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries (APEX-I International Co., Ltd. and Gallant Micro. Machining Co., Ltd.) have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic

subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

- (b) Gallant Precision Industries (Suzhou) Co., Ltd., Gallant Micro. Machining (Suzhou) Co., Ltd., Gallant Precision Machinery (Xiamen)Co., Ltd., Gallant Technology (Shenzhen) Co., Ltd., Gallant International Trading Co., Ltd. and Suzhou Jianmeifu Optical Co., Ltd., have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC.) are based on certain percentage of employees' monthly salaries and wages. The contribution percentage was 10% to 20%. Other than the monthly contributions, the Group has no further obligations.
- C. Gallant-Rapid Corpration Ltd., Gallant Micro Machining (Malaysia) Sdn. Bhd., Ltd., Quality Products and Services (Thailand) Co., Ltd., King Mechatronics Co., Ltd., Chun-Zhun Enterprise Corpration Ltd., Gallant Precision Machinery (BVI) Ltd. did not have a pension plan.

A. Under the Company's Articles of Incorporation, the Company shall distribute not less than 1% and not more than 12% of its annual profit as the employee compensation, and not more than 3% of its annual profit as the director remuneration. However, if the Company has an accumulated deficit, then it should be offset first.

Employee remuneration could be paid by cash or shares, and entitled to receive the cash or shares may include the employees of subsidiaries of the Company meeting certain specific requirements.

The term "profit" used in the first paragraph refers to the profit before tax before deducting the employee compensation and director remuneration. The distribution of employee compensation and director remuneration shall be in a board meeting that registers two-thirds of directors in attendance, and the resolution must receive support from half of participating members. The resolution should be reported to the shareholders at shareholders' meeting.

B. For the three-month periods ended September 30, 2016 and 2015 and for the nine-month periods ended September 30, 2016 and 2015, employees' remuneration was accrued at \$3,411, \$26,793, \$34,704 and \$34,949, respectively; directors' remuneration was accrued at \$1,023, \$5,359, \$10,411 and \$6,990, respectively. The aforementioned amounts were recognized in salary expenses.

The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on 10% and 3% of profit of current year distributable for the nine-month period ended September 30, 2016.

Employees' compensation and directors' and supervisors' remuneration of 2015 as resolved by the meeting of Board of Directors were in agreement with those amounts recognized in the 2015 financial statements.

Information about the appropriation of employees bonus and directors' and supervisors' remuneration by the Company as proposed by the Board of Directors and resolved by the stockholders will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

For the nine-month period ended September 30, 2015

Price risk

- i . The Group's investments in financial assets at fair value through profit or loss mainly were mutual fund. The prices of financial instruments would change due to the change of the future value of investment companies. If the prices of these financial instruments had increased/decreased by 1% with all other variables held constant, post-tax profit for the nine-month periods ended September 30, 2016 and 2015 would have increased/decreased by \$686 and \$534, respectively.
- ii. The Group's investments in equity securities comprise domestic listed and unlisted stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, other components of equity for the nine-month periods ended September 30, 2016 and 2015 would have increased/decreased by \$143 and \$168, respectively, as a result of gains/losses on equity securities classified as available-for-sale.

Interest rate risk

The Group's interest rate risk arises from short-term and long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. During the periods ended September 30, 2016 and 2015, the Group's borrowings at variable rate were denominated in the NTD, USD. If the interest rate had increased/decreased by 1%, the amount of cash flow out for the nine-month periods ended September 30, 2016 and 2015 would have increased/decreased by \$9,381 and \$5,489, respectively.

(b) Liquidity risk

- i . Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Group treasury. Group treasury invests surplus cash in interest bearing current accounts, beneficiary certificates and No active market of debt securities investment (Later than three mouth but not later than one years of deposit account), choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient head-room as determined by the above-mentioned forecasts. As at September 30, 2016, December 31, 2015 and September 30, 2015, the Group held money market position of \$2,131,052, \$1,457,163 and \$1,528,654, respectively, that are expected to readily generate cash inflows for managing liquidity risk.
- ii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

- (3) Fair value information
 - A. Details of the fair value of the Group's financial assets and financial liabilities not measured at fair value are provided in Note 12(2) A.
 - B. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks, beneficiary certificates, is included in Level 1
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in most derivative instruments is included in Level 2.
 - Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market and investment property is included in Level 3.
 - C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at September 30, 2016, December 31, 2015 and September 30, 2015 is as follows:

D. The methods and assumptions the Group used to measure fair value are as follows:

(a) The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

		Closed-end	Open-end
	Listed shares	fund	fund
Market quoted price	Closing price	Closing price	Net asset value

(b) Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date (i.e. yield curves on the Taipei Exchange, average commercial paper interest rates quoted from Reuters).

- (c) When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market, and options, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.
- (d) The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models.
- (e) The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.
- (f) The Group takes into account adjustments for credit risks to measure the fair value of financial instruments to reflect credit risk of the counterparty and the Group's credit quality.
- E. E&R Engineering corp. Corporation has been listed in the Taiwan Stock Exchange/ on the Taipei Exchange from June 2015, therefore, the Group has transferred the fair value form Level 2 to Level 1 at the end of month when the event occurred.
- F. The following chart is the financial instruments movement of Level 3 for the nine month periods ended September 30, 2016 and 2015:

	r the nine-month period led September 30, 2016		the nine-month period led September 30, 2015
	 equity instrument		equity instrument
At January 1	\$ 2,455	\$	9,105
Sold in the period	-	(4,631)
Gains and losses recognized in profit or loss	-	(5,032)
Gains and losses recognized in other comprehensive income	<u> </u>		3,013
At September 30	\$ 2,455	\$	2,455

- G. For the nine month periods ended September 30, 2016 and 2015, there was no transfer into or out from Level 3.
- H. Finance segment is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

I. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	ptember 0, 2016	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Derivative equity instrument: Unlisted shares	\$ 1,980	Market comparable companies	Price to book ratio multiple	1.26~1.28	The higher the multiple , the higher the fair value
Derivative equity instrument:	 ecember 1, 2015	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Unlisted shares	\$ 2,350	Market comparable companies	Price to book ratio multiple	1.16~1.18	The higher the multiple , the higher the fair value
Derivative equity instrument:	ptember 0, 2015	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Unlisted shares	\$ 2,898	Market comparable companies	Price to book ratio multiple	1.24~1.26	The higher the multiple , the higher the fair value

J. The Group has carefully assessed the valuation models and assumptions used to measure fair value; therefore, the fair value measurement is reasonable. However, use of different valuation models or assumptions may result in difference measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets categorized within Level 3 if the inputs used to valuation models have changed:
